SCHOOL AND COMMUNITY	<p>Winnacunnet is a four year, comprehensive high school located in the seacoast region of New Hampshire serving the towns of Hampton, Seabrook, Hampton Falls, South Hampton and North Hampton through a cooperative agreement established in 1958. The high school serves students in grades 9-12, and enrollment is 1100. These communities are largely residential, made up of a wide range of socio-economic groups, and local industry comprises light manufacturing and tourism. Boston, Massachusetts; Portland, Maine and Manchester, New Hampshire are within commuting distance.</p>																				
WHS CORE VALUES AND BELIEFS	<p>The Winnacunnet High School community believes in educating the whole student by providing a flexible, engaging, and supportive atmosphere where learning is relevant and lifelong. Students are encouraged to work both collaboratively and independently to foster effective communication. We are committed to providing an education that promotes creativity, innovation, critical thinking, problem solving skills, and responsible decision making. We believe this will enable our students to become active, contributing citizens of their communities. Our commitment to these beliefs will help prepare all students to achieve their full potential.</p>																				
FACULTY	<p>The WHS faculty consists of 106 teachers, 88% of whom have a master's degree or higher. Tenure of the faculty ranges from 1 to 42 years.</p>																				
CURRICULUM	<p>Winnacunnet integrates traditional academic content, career and technical education, and a generous offering of electives. Curriculum options include leveled courses, Dual Enrollment courses, for which the student can earn dual credit through colleges, College, Advanced Placement courses, and access to programs at our regional community technical school- Seacoast School of Technology.</p>																				
SCHEDULE	<p>Winnacunnet uses a trimester schedule in which traditional courses meet for one, two or three trimesters, daily. A single trimester course earns 2 credits and is the equivalent of a semester course. Many core courses meet the full requirement of a yearlong class in 2 Trimesters (4 credits). Due to the flexibility in our trimester schedule, we are able to add additional curriculum where it is beneficial to students with classes that meet 3 trimesters. Our Freshman English is 3 Trimesters and earns 6 credits because we have multiple sending middle schools and this allows us to ensure all students have the skills to be successful in reading, writing as incoming high school students. AP courses meet for three trimesters. Students in grades 9-11 are expected to carry six courses each trimester. Seniors are permitted to have five courses per trimester.</p> <p><i>Please note: The STARS self reported transcript does not allow for accurate trimester reporting for our schedule. Students will indicate semesters and years instead of trimesters to mimic the correct credits earned.</i></p>
